SUMMARY

I am a front-end web developer with experience in HTML, CSS, JavaScript, Sass, TailwindCSS, React, NextJS, TailwindCSS, and other technologies. I am skilled in creating visually appealing and user-friendly websites and have a strong understanding of web development principles. I am seeking a role where I can utilize my skills and continue to learn and grow as a developer. My goal is to use my passion for web development to create innovative and engaging digital experiences for users.

EXPERIENCE

Independent Freelancer

Oct 2021 - Present

- Communicate with clients to understand project requirements
- Customize existing websites to meet client's need
- Implement design in code using html, css, sass and javascript for clients

PROJECTS

Portfolio Website - [live site](#)

- Designed the logo and other UI components of the website using figma
- Implemented the design in code using react, nextjs and styled-components
- Utilized styled-components for consistent and maintainable styling across the application
- Leveraged react's functional components and hooks for efficient code reusability and improved performance

Comfy-Homes - [live site](#)

- Built a responsive real estate website using React, Next.js, and Tailwind CSS
- Implemented client-side rendering and optimized performance using Next.js
- Utilized a REST API to retrieve and display property listings and details

Fitness Blog Web Application - [live site](#)

- Implemented the client-side rendering and optimized performance using Nextjs
- Integrated the website with Contentful headless CMS using GraphQL to manage and retrieve blog posts and media assets
- Deployed the website using Vercel and integrated it with Contentful headless CMS for content management
